

Aims of „Emergency brake“

- 1. Manual**
- 2. Training of Multipliers**
- 3. Seminars with young people**
- 4. Awareness rising for non-formal education in the field of violence prevention amongst politicians and stake holders**

Manual

- Manual with methods of non-formal education on violence prevention
- will be published by the end of 2007 (1000 copies, budget limit 6000€) and distributed in the partner countries but also in whole of Europe
- Manual will be published in English, but also in the partner languages
- *we have to agree on the layout and the content (methods)*
- *Partners have to translate the methods for the manual in their own language*

Training of Multipliers

- in order to use the manual also after the project multipliers should be trained on the methods
- *each partner should run 7 trainings with at least 7 participants over the whole project duration*

Seminars with young people

- partner will run seminars in order to reduce the willingness for violence amongst young people and give information regarding the issue
- *each partner should run seminars with a total number of participants of 360 per country during the whole project duration*

Awareness rising

- each partner should enforce the understanding and support of stakeholders for non-formal education as an important supplement to formal education
- the way of reaching this aim is surely very different in each country
- *ideas can be articles in the newspaper, meetings with politicians etc*
